

CST's mission statement is "Providing Quality Services in a Dependable Manner". This is the concept that guides the actions of CST employees. Our desire is to serve our customers in a professional manner while providing the best services that we possibly can. We accomplish this by being attentive to our customers needs to stay in compliance with their air permits and to be flexible with regards to the rigid scheduling needs of the testing and reporting deadlines that need to be met.

Our mobile laboratories are designed for the rugged roads that leads to many of your company sites. Our lab is also designed for functionality by using reference method analyzers while maximizing space for manual sample equipment. Electrical power is provided by an onboard generator that eliminates instrument warm-up time and test set-up time.

**COMPLIANCE SERVICES AND TESTING, LLC**

## **SERVICES INFORMATION**

- QUARTERLY COMPLIANCE TESTING**
- INITIAL COMPLIANCE TESTING**
- RICE MACT TESTING**
- NSPS TESTING**
- CEMS RATA**
- ENGINE TUNING**
- VISIBLE EMISSIONS**
- SULFUR TESTING**
- FORMALDEHYDE TESTING**
- PART 75 TESTING**
- PARTICULATE MATTER TESTING**
- REPORT REVIEW**

## Testing Methods

- **Instrumental Analysis for EPA Reference Methods (Part 60):**
- M3a for O<sub>2</sub>/CO<sub>2</sub>
- M6c for SO<sub>2</sub>
- M7e for NO<sub>x</sub>
- M10 for CO
- M20 for NO<sub>x</sub>/O<sub>2</sub>/SO<sub>2</sub> per Sub-Part GG
- M25b for THC/VOC
- PS2 for NO<sub>x</sub>/SO<sub>2</sub>
- PS3 for O<sub>2</sub>/CO<sub>2</sub>
- PS4 for CO
- Inquire about PM/PM<sub>10</sub> testing

## Testing Capabilities

- **Wet Chemical Analysis for EPA Reference Methods (Part 63):**
- M323 for Formaldehyde
- **Volumetric Flow Rate Determination for EPA Reference (Part 60):**
- M1-4 for velocity pressures and moisture quantification
- M19 for stoichiometric calculations (fuel flow and horsepower methods)
- **Visible Emissions for EPA Reference Methods (Part 60):**
- M9 for Opacity Determination – Current Certification Required
- M22 for Opacity Determination – Current Certification not required

## Testing Applications

- **Initial Compliance Tests for Permit Requirements**
- **NSPS Testing for Stationary Gas Turbines**
- **RICE MACT**
- **Periodic Demonstration Tests following Abbreviated Methods or State Protocols**
- **Converter Efficiency Checks**
- **CEMS/PEMS RATA's**
- **Emissions Inventory**
- **Permit Applications**
- **Emissions Guarantee**
- **Engine Tuning**
- **Turbine Mapping**
